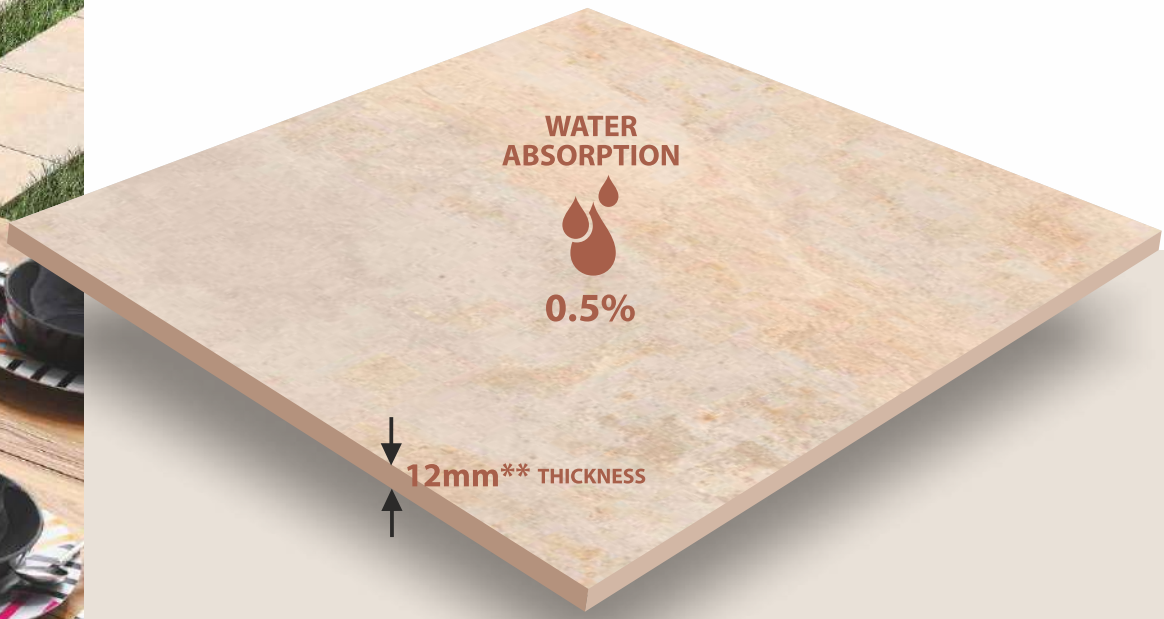
Floor Tiles

- Toughness: Amongst the toughest tile in Industry with 15 mm thickness
- Assistive design for visually impaired designs: Comes with supportive “"Foot Braille"" features, to help and assist visually impaired."
- Vitrified Body: Armed with Vitrified body features making it's applicability universal that stands weather, temperature and test of time."
- Durability & Strength: Due to its low water absorption (<0.5%) these tiles are highly durable & very high on strength.
- Anti-Skid properties: Enhanced Slip resistant feature due to Corundum surface finish.
- Abrasion Resistance: Recommended replacement for concrete or polymer based products due to its high abrasion resistance (*manifold).

DURASTONE 400x400MM

ULTRA STRONG OUTDOOR VITRIFIED TILES

Beautiful exteriors are integral element for the overall look and beauty of the space. It's like first impression for the lasting admiration. So adorn your exteriors and outdoors with tough and stylish Ultra Strong Outdoor Vitrified Tiles. When superior technology meets aesthetic aspirations it translate in to a collection where strength meets splendor with the promise of prolonged beauty and durability.



** Work size 11.5 mm to 12mm

- Frost Resistant
- Zero Maintenance
- Stain Resistant
- Durable Over Time
- Resistant to Deep Scratch
- Suitable for Crowded Area
- Slip Resistant
- Resistant to Acids and Chemicals
- Suitable for Vehicles
- Resistant to Loads
- Rectified
- Environment Friendly

Commercial Spaces | Hotels, Lounges, Malls, Airports, Boutiques, Office, Hospital, Commercial Service Buildings.

I) **Stain Resistance**	Min Class 3	Min Class-1	ISO 10545-14
ii) Resistance to household chemicals	Min Class GB	Min Class AA	ISO 10545-13
iii) Resistance to acids and alkalis (with exception of hydrofluoric acid and its compounds)	Declared Value	Min Class AA	

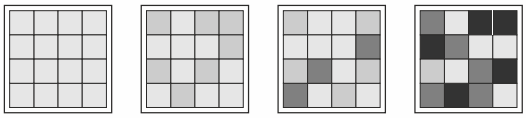
** Work size 11.5 mm to 12mm

The reproduction of tiles in this catalogue is restricted to four color printing only and tiles are not in relative sizes, therefore customers are advised to see physical sample before placing the order. 'Technical Specifications for Somany Wall & Floor Tiles are applicable only for premium quality tiles. Please inspect all tiles prior to installation, company will not entertain complaints, once the tiles are laid/fixed. Complaints will not be entertained for Borders, Highlighters & Motifs.

DESIGN, PATTERN & SHADE VARIATION GUIDE

Current Development efforts have made ceramic tiles to resemble and look authentically identical to natural materials (Stone, Wood, Fabric), and it has become increasingly difficult in many cases, to distinguish between the two.

Recognising this situation, it is necessary to be informed on the grade of design & Pattern variation that is expected from these products. As a general reference, the design & Pattern guide below classifies a scale of ranges according to the degree of the variation.



V1 Uniform Appearance **V2** Slight Variation **V3** Moderate Variation **V4** Substantial Variation

The classification is as follow:

V1 Minimal Variation **V3** Random Variation
V2 Slight Variation **V4** Substantial Variation

STONE 16 | XTRA STRONG OUTDOOR TILES

HEAVY DUTY VITRIFIED TILES

Whether the choice is to make a statement with a light or strongly coloured grey & sand browns, the look of Stone 16 is incredible. A tile with cutting-edge technology is sure to turn your space to a whole new level.

The Stone 16 series seeks to enhance the natural beauty and drama of the outdoor expanse and transform it into a design element for use by those in search of something truly enticing. A tile with 16 mm thickness and remarkable features is easy to lay with trouble-free maintenance.

CHARACTERISTICS

Robust Surface

A technical product that is ideal for indoor and outdoor surfaces, designed to resist inclement weather and to withstand heavy loads. The several layers and coatings of special glazes give these tiles an upper edge of being slip resistant and scratch resistant.

Powerful Body

The longevity and durability of the tiles are due to its characteristics of high shear and tensile strength.
A must buy product which can extend its durability in high traffic and longevity even in intense temperatures.

Extensive Applications

Apt for heavy traffic such as shopping centres, malls, restaurants, balconies, schools, entrances, terraces, lobbies for maximum impact. Because of durability and resistance, it can extensively cater to the needs of internal and external spaces too.

Sophisticated Designs

A great addition to the indoor and outdoor expanse with exclusive colors, shades and patterns.

Minimal Care& Maintenance

The stone tiles have been designed to require minimum care throughout the life of the product.The tiles have layered seal on the tile surface with the feature of being non-porous and so it won't absorb anything.

COLLECTION

600X 600MM

IONTECH
VITRIFIED TILES

In this technology, the Mosaic chips are fused in the body of the tile, which gives exciting outputs. There are several benefits of the revolutionary Ion-Tech series:

- The fusing of mosaic chips give our tiles a natural and everlasting ambience.
- Diamond-polished and super glossy surface with long-lasting durability.
- Tiles of the Ion-Tech series are meant for both floor & wall surfaces.
- We have many popular and unique shades in this series, especially considering all earthen colours to give complete serenity & calmness to your home & commercial environment.
