KEY FEATURES

	Anti Skid		Frost Resistance		Easy To Clean
	High Flexural Strength		Chromatic Properties		Suitable For Indoor & Outdoor Application
	Wear Resistance		Eco Friendly & Recyclable		Size
	Fire Resistance		Chemical Resistance		Thickness
	Heavy Load Bearing		High Mechanical Resistance		Floor Tiles

- Toughness: Amongst the toughest tile in Industry with 15 mm thickness
- Assistive design for visually impaired designs: Comes with supportive ““Foot Braille”” features, to help and assist visually impaired.”
- Vitrified Body: Armed with Vitrified body features making it's applicability universal that stands weather, temperature and test of time.”
- Durability & Strength: Due to its low water absorption (<0.5%) these tiles are highly durable & very high on strength.
- Anti-Skid properties: Enhanced Slip resistant feature due to Corundum surface finish.
- Abrasion Resistance: Recommended replacement for concrete or polymer based products due to its high abrasion resistance (*manifold).

DURASTONE

400x400MM ULTRA STRONG OUTDOOR VITRIFIED TILES

Beautiful exteriors are integral element for the overall look and beauty of the space. It's like first impression for the lasting admiration. So adorn your exteriors and outdoors with tough and stylish Ultra Strong Outdoor Vitrified Tiles. When superior technology meets aesthetic aspirations it translates into a collection where strength meets splendor with the promise of prolonged beauty and durability.

PACKAGING DETAIL FOR 400x400MM FLOOR TILES				
Nominal Size	Thickness(mm)	Average weight per carton (Kgs)	No. of tiles per carton	Coverage area per carton
400 X 400MM	12mm**	20.00 Kgs. Approx	5 Pcs	0.80 Sq.mt / 8.61 Sq.ft

TECHNICAL SPECIFICATIONS FOR 400x400MM FLOOR TILES				
Characteristics	Requirements as per ISO 13006≤0.5% Group Bla	Our Values	Test Method	
A) Dimension & Surface Quality				
i) Length & Width	± 0.5%	± 0.10%	ISO 10545-2	
ii) Thickness	± 5.0%	± 4.0%		
iii) Straightness of Side	± 0.50%	± 0.10%		
iv) Rectangularity	± 0.60%	± 0.10%		
v) Surface Flatness				
a) Center curvature (%) (max.Deviation)	± 0.50%	± 0.2 %		
b) Edge curvature (%) { max.Deviation)	± 0.50%	± 0.2 %		
c) Corner warpage (%) (max.Deviation)	± 0.50%	± 0.2 %		
vi) Surface Quality	Min. 95 % of tiles will be free from visible defects	Min. 95 % of tiles will be free from visible defects		
B) Physical Properties				
i) Water Absorption	Av ≤ 0.5 %, Individual 0.6% max	Avg. ≤ 0.5 %	ISO 10545-3	
ii) Modulus of Rupture [N/mm ²]	Av 35, Individual 32 min	Avg.38		
iii) Breaking Strength in N	1300	Min. 2500		
iv) Moisture Expansion in mm/m	Test Method Available	Max.0.02		
v) Scratch Hardness of surface (Mohs)	N/A	Min-6		
vi) Resistance to Abrasion of glazed tiles(Class I to V)	Abrasion Class & Cycle passed	Class v		
vii) Coefficient of linear thermal expansion from embiant temperature to 100° C	Test Method Available	Max 6 X 10 ⁻⁶ K ⁻¹ max		
ix) Thermal Shock Resistance	Required	10 cycle passed		
ix) Crazing Resistance	N/A	4 cycle passed		
x) Impact Resistance as Co-efficient of Restitution	Test Method Available	0.75-0.90		
xi) Frost Resistance	Required	100 Cycle Passed		
C) Chemical Resistance (glazed Tiles)				
i) Stain Resistance	Min Class 3	Min Class-1	ISO 10545-14	
ii) Resistance to household chemicals	Min Class GB	Min Class AA		
iii) Resistance to acids and alkalis (with exception of hydrofluoric acid and its compounds)	Declared Value	Min Class AA		

** Work size 11.5 mm to 12mm

The reproduction of tiles in this catalogue is restricted to four color printing only and tiles are not in relative sizes, therefore customers are advised to see physical sample before placing the order. Technical Specifications for Somany Wall & Floor Tiles are applicable only for premium quality tiles. Please inspect all tiles prior to installation, company will not entertain complaints, once the tiles are laid/fixed. Complaints will not be entertained for Borders, Highlighters & Motifs.

DESIGN, PATTERN & SHADE VARIATION GUIDE

Current Development efforts have made ceramic tiles to resemble and look authentically identical to natural materials (Stone, Wood, Fabric), and it has become increasingly difficult in many cases, to distinguish between the two.

Recognising this situation, it is necessary to be informed on the grade of design & Pattern variation that is expected from these products. As a general reference, the design & Pattern guide below classifies a scale of ranges according to the degree of the variation.

The classification is as follow:

- | | |
|-----------------------------|---------------------------------|
| V1 Minimal Variation | V3 Random Variation |
| V2 Slight Variation | V4 Substantial Variation |

HEAVY DUTY > VITRIFIED TILES

Whether the choice is to make a statement with a light or strongly coloured grey & sand browns, the look of Stone 16 is incredible. A tile with cutting-edge technology is sure to turn your space to a whole new level.

The Stone 16 series seeks to enhance the natural beauty and drama of the outdoor expanse and transform it into a design element for use by those in search of something truly enticing. A tile with 16 mm thickness and remarkable features is easy to lay with trouble-free maintenance.

CHARACTERISTICS

Robust Surface

A technical product that is ideal for indoor and outdoor surfaces, designed to resist inclement weather and to withstand heavy loads. The several layers and coatings of special glazes give these tiles an upper edge of being slip resistant and scratch resistant.

Powerful Body

The longevity and durability of the tiles are due to its characteristics of high shear and tensile strength. A must buy product which can extend its durability in high traffic and longevity even in intense temperatures.

Extensive Applications

Apt for heavy traffic such as shopping centres, malls, restaurants, balconies, schools, entrances, terraces, lobbies for maximum impact. Because of durability and resistance, it can extensively cater to the needs of internal and external spaces too.

Sophisticated Designs

A great addition to the indoor and outdoor expanse with exclusive colors, shades and patterns.

Minimal Care & Maintenance

The stone tiles have been designed to require minimum care throughout the life of the product. The tiles have layered seal on the tile surface with the feature of being non-porous and so it won't absorb anything.

IONTECH VITRIFIED TILES

In this technology, the Mosaic chips are fused in the body of the tile, which gives exciting outputs. There are several benefits of the revolutionary Ion-Tech series:

- The fusing of mosaic chips give our tiles a natural and everlasting ambience.
 - Diamond-polished and super glossy surface with long-lasting durability.
 - Tiles of the Ion-Tech series are meant for both floor & wall surfaces.
 - We have many popular and unique shades in this series, especially considering all earthen colours to give complete serenity & calmness to your home & commercial environment.

A photograph showing a large area of polished marble floor tiles with a prominent veining pattern of brown, tan, and black. Two wooden bar stools with black metal legs are placed on the floor, one in the foreground and one further back. The lighting creates strong highlights and shadows on the curved surfaces of the stools and the polished marble.
